

## North Star Nursery Mission Statement

North Star Nursery aims to provide high quality, inclusive childcare and education for children aged between three months and five years, in a suitable and safe environment.

We maintain these aims through our policies, procedures and Continued Professional Development of staff.

Through a language rich environment (both inside and outdoors) we support the holistic development of each and every child to be school ready and reach their potential as individuals.

*The Nursery's onsite service is primarily for the children of the employees of UKRI, UK Shared Business Services (UK SBS) and Innovate UK on a full day care basis in loco parentis.*

In addition, North Star Nursery aims to provide a range of on demand services in the early years sector, via student placements, school links and consultancy.
